JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

3. No milk shall be pasteurized more than once.

4. No milk containing an excessive number of bacteria shall be pasteurized.

General regulations for grade B.—1. Caps of bottles containing milk of grade B shall be white and marked "Grade B" in bright-green letters, in large type.

2. Cans containing milk of grade B shall have a tag affixed to each can with the words "Grade B" in large type in bright-green letters.

Milk—Grades. (Reg. Bd. of H., Oct. 28, 1913.)

Resolved, That section 56a of the sanitary code be, and the same is hereby, amended to take effect on and after February 1, 1914, so as to read as follows:

SEC. 56a. All milk held, kept, offered for sale, or sold and delivered in the city of New York shall be so held, kept, offered for sale, or sold and delivered under either or any of the following grades or designations and under no other, and in accordance with such rules and regulations as may from time to time be adopted by the board of health, namely:

Grade A. For infants and children:

1. Certified or guaranteed milk.
2. Inspected milk (raw).
3. Selected milk (pasteurized).

Grade B. For adults:

Pasteurized milk.

Grade C. For cooking and manufacturing purposes only.

Condensed skimmed milk.

Condensed or concentrated milk.

The provisions of this section shall not apply to buttermilk or to milk products commonly known as kumiss, matzoon, zoolak, dried milk, or milk powder, or to other similar preparations, or to cream or modified milk.

Cream—Grade B, Pasteurized—Definition—Labeling. (Reg. Bd. of H., Oct. 29, 1913.)

Resolved, That the rules and regulations relating to the sale of cream in the city of New York, adopted by the board of health August 26, 1913, be, and the same are hereby, amended under the heading "(b) Grade B cream (pasteurized)" as follows:

Definition.—Grade B cream (pasteurized) is cream which is made from pasteurized milk or from raw milk and pasteurized.

4. All containers in which pasteurized cream is delivered to the consumer shall be plainly labeled "Pasteurized," and bottle labels shall give the name of the person, firm, or corporation bottling and place where bottled.

Milk—Use of Sediment Tester Required. (Reg. Bd. of H., Dec. 22, 1913.)

Resolved, That the following regulations for the protection of life and the care, promotion, and preservation of health be, and the same are hereby, adopted to take effect on and after the 1st day of February, 1914:

(1) That the sediment tester approved by the department of health of the city of New York be used in all creameries shipping milk to the city of New York.

(2) That all milk received at any creamery so shipping milk as aforesaid be tested thereat by the person having the management and control of such creamery at least once a week and that the results of such test be posted in a conspicuous place in the creamery, and duplicates of such test be forwarded to the department of health at the end of each month.

(3) That the photograph or gauge established by the board of health of the city of New York be used as a standard in the creameries herein referred to in determining whether milk contains excessive sediment.
